

Craft Beer School
Learn. Brew. Cheer

COURSE PROSPECTUS · 2026

Brew like you *mean it.*

27 live online courses in brewing, business, spirits and the drinks beyond beer, hands-on days in Bengaluru and services for drinks companies. Taught by people who do the work.

ABOUT THE SCHOOL

India's beer school, grain to glass and beyond.

We teach everything inside and outside the bottle: ingredients, brewing, tasting, branding and the business of beer. Now we teach spirits, AI for breweries and the drinks beyond beer too. Live online sessions, guided tastings and hands-on brewery days.

27
Live online courses

20
Students per batch, at most

Sat-Sun
12:00 to 2:00 PM IST

Cert.
Certificate of completion

A.V. Ganesh Ramu
Senior Mentor · Master Brewer. Thirty-eight years of brewing in five countries.

Ankur Napa
Course Instructor · Master Brewer. A Master Brewer who also works in data and AI.

Chatty Girija
Beer Podcaster · Creative Strategist. Thirty years in advertising, poured into beer.

Anu Rao
Head of Strategy & Operations · Culinary Expert. The reason every cohort runs on time.

Rahul Baliyan
Brewing Science Instructor · Delhi & North India. German-style brewing, taught from Delhi.

Kenneth
Beer Educator · National Beer Judge. Beer education, judging and writing across Asia.

Live, not recorded
Two live sessions every weekend, with recordings afterwards.

Small batches
At most 20 students, so every question gets answered.

Weekly assignments
Real tasks on your own recipes, data or brand.

Certificate
Once every assignment is in and you have attended at least 80% of sessions.

TRACK

Brewing

From your first batch to a judge's palate.

Brewing Fundamentals

4 Weeks · ₹5,999

The science of brewing: ingredients, equipment and technique. Live online sessions, plus your first real recipe.

- Brewing science and theory
- Raw materials and quality
- Equipment and sanitation
- Recipe formulation basics

For: Homebrewers who want to know why a batch worked, not just that it did

Advanced Brewing Science

6 Weeks · ₹12,999

Go deeper into brewing chemistry, microbiology and fermentation. For serious homebrewers and professionals.

- Microbiology and fermentation
- Water chemistry optimisation
- Advanced mashing techniques
- Quality assurance and control

For: Working brewers and assistant brewers

Style Specialisation

8 Weeks · ₹18,999

Master IPAs, stouts, lagers, sours and Belgian ales: their history, technique and award-winning examples.

- Style guidelines & origins
- Specialised techniques
- Ingredient selection & pairing
- Competition brewing skills

For: Brewers who want a broader portfolio

Sensory Evaluation

2 Weeks · ₹5,999

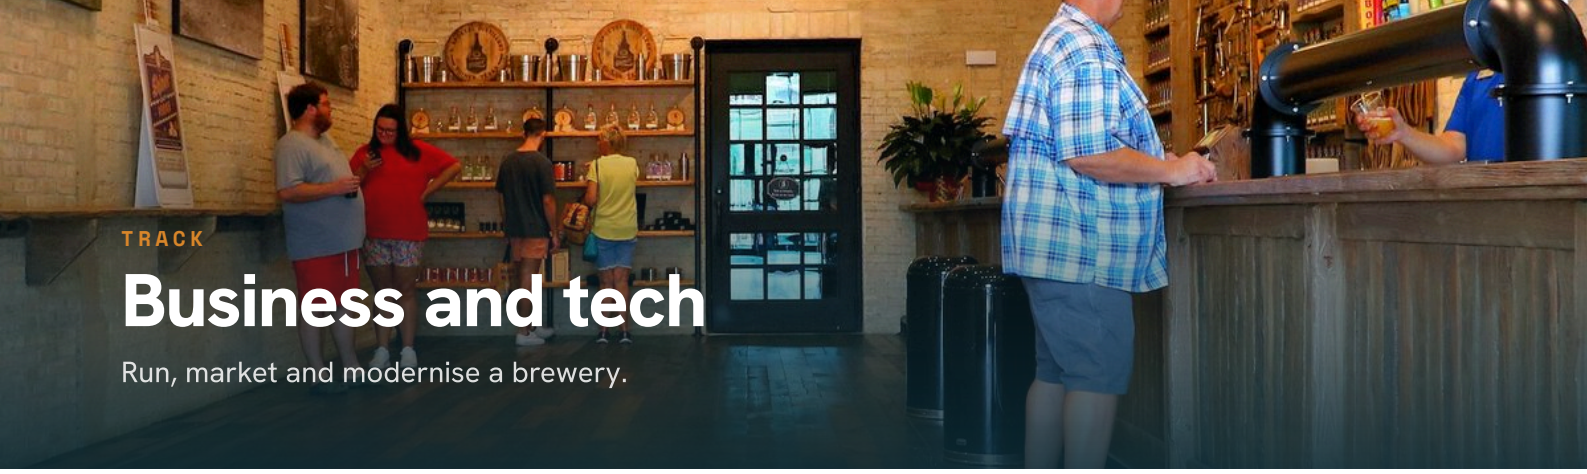

Train your palate like a pro: taste, identify off-flavours and score beer with real sensory methods.

- Flavour chemistry
- Tasting techniques
- Off-flavour identification
- Quality scoring systems

For: Brewers and QC staff

WSET Beer exam prep

Preparation for every WSET Beer level, in groups or one-to-one: syllabus, guided tastings and mock papers. You sit the exam through a WSET Approved Programme Provider.

TRACK

Business and tech

Run, market and modernise a brewery.

Brewery Business Management

3 Weeks · ₹8,999

The business behind the brew: plan, launch and grow a brewery, from finance to distribution.

- Business planning and finance
- Licensing and regulations
- Marketing and branding
- Distribution strategies

For: Founders planning a brewpub or microbrewery

AI for Craft Breweries

2 Weeks · ₹5,000

Put GenAI to work on your brewery's copy, social posts and weekly admin and use it responsibly. No coding needed.

- GenAI for beer copy & social
- Prompting with your brewery's facts
- Automating repetitive tasks
- Responsible AI & alcohol ad rules

For: Brewery and brewpub owners who write their own posts at midnight

Digital Transformation Basics for Brewing

2 Weeks · ₹5,000

Move your brewery off paper and into simple digital tools: brew logs, stock, batch tracking and a dashboard you will actually open.

- Paper to digital brew logs
- Stock and batch tracking
- Sensors and dashboards
- A 90-day digital plan

For: Brewery owners still running on paper, WhatsApp and memory

ESG in Craft Brewing

2 Weeks · ₹5,000

Water, energy, spent grain, packaging, people and governance: measure what your brewery does and tell the story honestly.

- Water and energy per litre
- Spent grain, waste and packaging
- People, safety and community
- A simple ESG scorecard

For: Founders asked about sustainability by investors, retailers or customers

Power BI and Tableau for Breweries

2 Weeks · ₹5,000

Build the dashboards a brewery actually opens: brew logs, yield, losses, stock and sales in Power BI or Tableau, from your own spreadsheets.

- Brewery data model from your logs
- Yield, loss and KPI dashboards
- Power BI and Tableau side by side
- A dashboard your team will keep

For: Head brewers and owners whose numbers live in five spreadsheets and a WhatsApp group

TRACK

Brand and marketing

Build, name and market a brewery brand people remember.

Beer Branding & Packaging

3 Weeks · ₹4,999

Build a beer brand that stands out and packaging that sells. Made for aspiring brewers and founders.

- Build your brand identity
- Design packaging that pops
- Launch planning & promotion
- Certificate & community access

For: Brewery founders before launch

Digital Marketing for Breweries

2 Weeks · ₹5,000

Market a brewery online inside India's alcohol advertising rules: Instagram, WhatsApp, Google listings and content that fills a taproom.

- What the ad rules allow online
- Instagram, reels and creators
- WhatsApp, Google listings and reviews
- A content calendar and the numbers to watch

For: Brewpub and microbrewery owners who run their own social media

Brand Strategy and Positioning for Breweries

2 Weeks · ₹5,000

Work out who your brewery is for and why it is different, then write it down so every label, post and pint says the same thing.

- Positioning against your real competition
- Values a team will actually use
- Drinker personas without stereotypes
- A one-line brand essence

For: Founders planning a new brewery or brewpub

Rebranding a Brewery

2 Weeks · ₹5,000

Plan a rebrand that keeps the drinkers you have: audit, goals, budget, the design brief and a roll-out timed to new labels and approvals.

- Refresh or full rebrand
- Brand audit and what drinkers remember
- Goals, team and budget
- Roll-out, labels and launch day

For: Breweries whose look no longer matches their beer

Naming and Trademarks for Drinks Brands

2 Weeks · ₹5,000

Find a brewery or beer name people can say, spell and remember, then check it is free to use before you print a single label.

- What makes a name work
- Testing a shortlist
- Trade mark searches in India
- Filing with an attorney, step by step

For: Founders naming a brewery or brewpub

Taproom Marketing and Community

2 Weeks · ₹5,000

Turn first visits into regulars: events, beer clubs, staff who live the brand and local partnerships for a taproom or brewpub.

- Events that bring people back
- Beer clubs and regulars
- Staff as the brand
- Local partners and collaborations

For: Taproom and brewpub owners

TRACK

Spirits

Distilling and gin, from wash to bottle.

Craft Distilling

4 Weeks · ₹9,999

From wash to bottle: stills, cuts, gin botanicals, ageing in Indian heat and the licences a craft distillery needs.

- Wash, stills and the run
- Heads, hearts and tails
- Gin and botanicals
- Ageing, costs and licensing

For: Brewers thinking about adding spirits

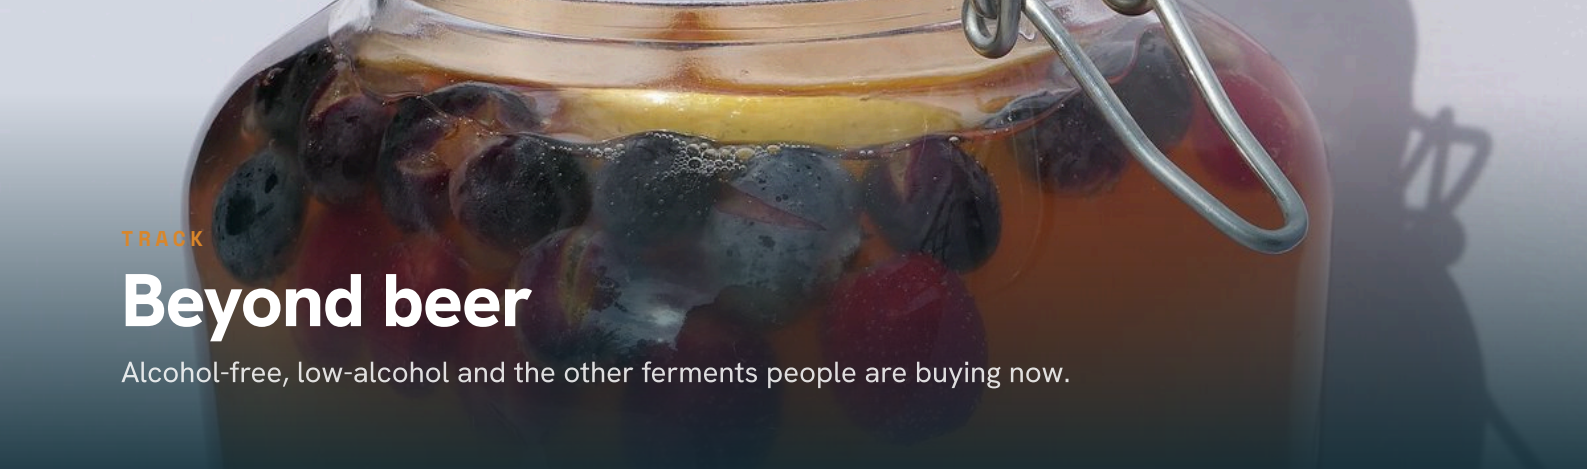

Craft Gin Making

4 Weeks · ₹9,999

Design and make a gin of your own: juniper and botanicals, the still run, proofing and getting a bottle to market in India.

- What makes a gin a gin
- Botanicals, including Indian ones
- Distilling, cuts and proofing
- Brand, costing and licences

For: Founders planning a craft gin brand

TRACK

Beyond beer

Alcohol-free, low-alcohol and the other ferments people are buying now.

Non-Alcoholic Beer

2 Weeks · ₹5,000

Beer that still tastes like beer, without the alcohol: limited fermentation, special yeasts, body and aroma, plus keeping it safe on the shelf.

- Limited fermentation and special yeasts
- Dealcoholisation and when it makes sense
- Body, aroma and avoiding a worty taste
- Pasteurisation, testing and labelling

For: Craft breweries adding a zero or low alcohol beer

RTD Drinks: Alcoholic and Non-Alcoholic

2 Weeks · ₹5,000

Ready-to-drink cans and bottles, with and without alcohol: formulation, sweetness and acid, carbonation, shelf life and the rules.

- Formulating for flavour and balance
- Spirit, malt and sugar bases
- Carbonation, canning and shelf life
- Excise and FSSAI labelling

For: Brewers and distillers looking at canned cocktails

Hop Water

2 Weeks · ₹5,000

Sparkling water with all the aroma of hops and none of the alcohol. Make it on brewery kit and keep it stable on the shelf.

- Choosing hops for aroma
- Cold steeping, oils and extracts
- pH, carbonation and stability
- Selling a zero-alcohol line

For: Breweries that want a zero-alcohol drink on tap

Hard Seltzer

2 Weeks · ₹5,000

A clean, dry sugar ferment turned into a light, fruity seltzer: base, yeast nutrition, clarity, flavour and the rules in India.

- Sugar base and yeast nutrition
- A clean, neutral fermentation
- Clarity, flavour and acid
- Packaging and excise

For: Brewers with spare tank space

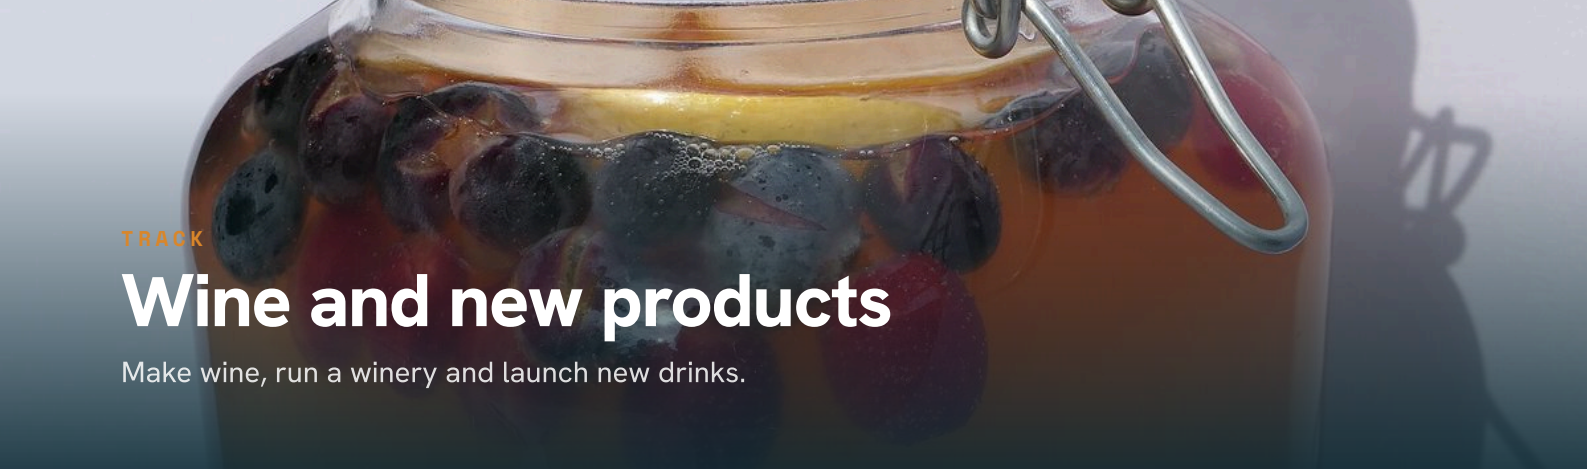

Kombucha

2 Weeks · ₹5,000

Brew kombucha safely and consistently, from tea, sugar and culture to flavoured, sparkling bottles for a cafe or taproom.

- Tea, sugar and the culture
- Safe pH and clean brewing
- Second ferment and flavour
- Scaling up and labelling

For: Cafe and taproom owners who want their own kombucha

TRACK

Wine and new products

Make wine, run a winery and launch new drinks.

Winemaking

2 Weeks · ₹5,000

Grape to bottle: harvest numbers, crushing and pressing, red and white fermentation, malolactic, clarifying and bottling, for Indian vineyards and climate.

- Grapes, sugar and acid at harvest
- Red and white fermentation
- Malolactic, clarifying and ageing
- Bottling and stability

For: Grape growers who want to make their own wine

Fortified Wine

2 Weeks · ₹5,000

How port-style, sherry-style and other fortified wines are made: fortifying with grape spirit, sweetness, oxidative ageing and blending.

- Fortifying with grape spirit
- Sweet and dry styles
- Oxidative and barrel ageing
- Blending, costing and the rules

For: Winemakers adding a fortified or dessert wine to their range

Winery Business

2 Weeks · ₹5,000

Run a small winery as a business: costing a bottle, licences and excise, route to market, cellar door and wine tourism in India.

- Costing a bottle of wine
- Licences, excise and labels
- Route to market and pricing
- Cellar door and wine tourism

For: Founders planning a small winery or wine brand

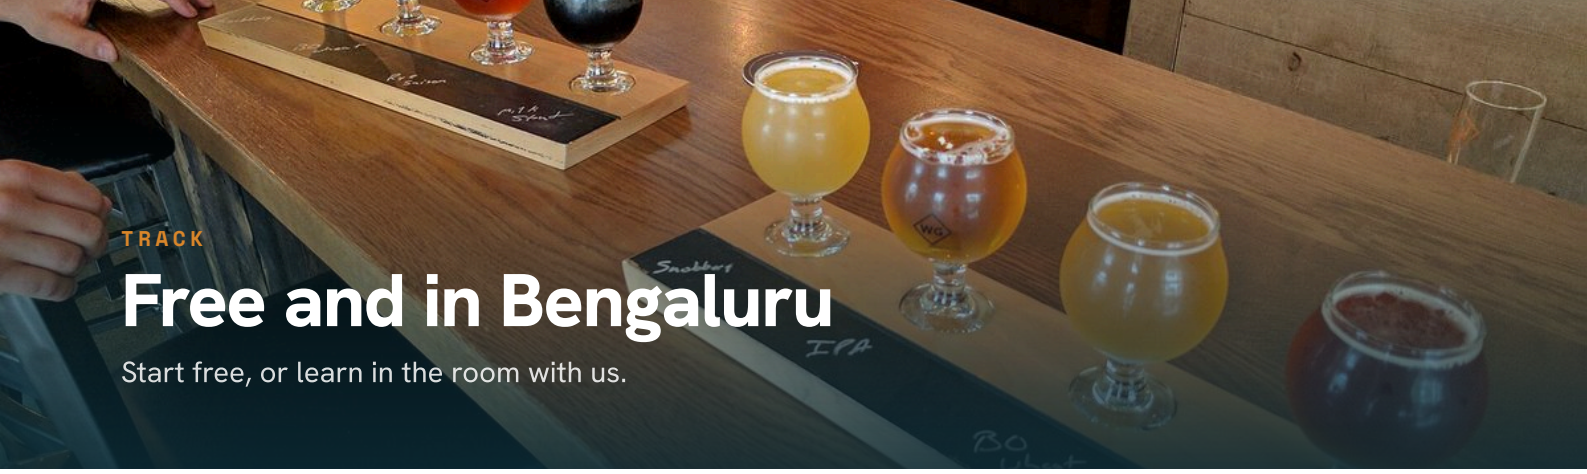

New Product Development: Beer, Whisky and Wine

2 Weeks · ₹5,000

Take a new beer, whisky or wine from idea to launch: consumer insight, formulation, pilot batches, sensory testing, costing, labels and launch.

- Finding the gap and the drinker
- Formulation and pilot batches
- Sensory testing and costing
- Labels, approvals and launch

For: Brewers, distillers and winemakers planning a new product

TRACK

Free and in Bengaluru

Start free, or learn in the room with us.

Safety in Brewing

1 Week · Free

The hazards that hurt people in breweries and how to work around them: CO2, chemicals, heat, pressure and confined spaces.

- CO2 and confined spaces
- Caustic, acid and hot liquids
- Pressure, kegs and lifting
- Your brewery safety checklist

For: Anyone starting work in a brewery or brewpub

Professional Beer Tasting Day

1 day · ₹4,999

In person in Bengaluru. A guided flight across the main styles plus spiked off-flavour samples. The professional tasting method, written notes and an industry scoresheet. Beers and kit included.

Brewery Business Tour

Half day · On enquiry

For anyone thinking about a brewery or brewpub. Walk a working Bengaluru brewery with a brewer who runs one, then the questions on cost, licences, staffing and space.

1-Day Super Intensive Craft Beer Course

1 day · ₹25,000

In person in Pune, Delhi, Gurugram and Bengaluru. A full day in a working microbrewery, from raw materials to a finished pour, with a certificate.

1-Month Intensive Brewing Excellence Course

1 month · ₹1,25,000

48 contact hours of classes, lab work and hands-on brewing in partner microbreweries. At most 20 students. Separate prospectus on the website.

Brewing Fundamentals Study Book

PDF · ₹1,999

Study material, not a course: the 1-month syllabus as 17 chapters of notes with a crossword each. Pay and we email it to you.

FOR COMPANIES

Training, hiring and consulting for the drinks business.

Corporate training

Beverage domain training for GCC teams in Bengaluru, Pune and Hyderabad: Beverage 101, operations, supply chain, regulation, sensory, data and AI.

Hiring support

The right people for every function in a brewery, winery or distillery, screened by people who do the job.

Brand and digital marketing

Brand strategy, naming, packaging direction, launches and digital marketing that works within India's alcohol advertising rules.

Market entry into India

For beer brands, ingredient, raw material, packaging and equipment companies from abroad: the market, the rules by state, partners and launch.

Digital transformation

Brew records, stock and batch tracking, dashboards, software choices and AI, with a 90-day plan.

Talk to us

Every engagement starts with a conversation about how your business runs today. Legal and tax steps are done alongside your own advisers.

ENROL

Pick a course. Save your seat.

Enrol online, ask a question on WhatsApp, or tell us about the team you want to train. We reply within 24 hours.
