Ages 12+

Brew Day Dash

Race to brew a batch from mill to package while your rivals throw trouble at your brewhouse.

Set up

1. Shuffle all 66 cards. Deal 5 to each player and put the rest face down as the draw pile.

On your turn

1. Draw one card.
2. Then do one of these:
 - Play your **next stage** face up in your own row. Stages must go in order, starting with Mill.
 - Play a **trouble** card on a rival who has no trouble showing. They are stuck until they fix it.
 - Play the matching **fix** on your own trouble. Both cards go to the discard pile.
 - Discard one card if you cannot or do not want to play.
3. End your turn with 5 cards in hand.

Winning

The first player to lay Package on a complete row of nine stages wins the brew day. If the draw pile runs out, shuffle the discards.

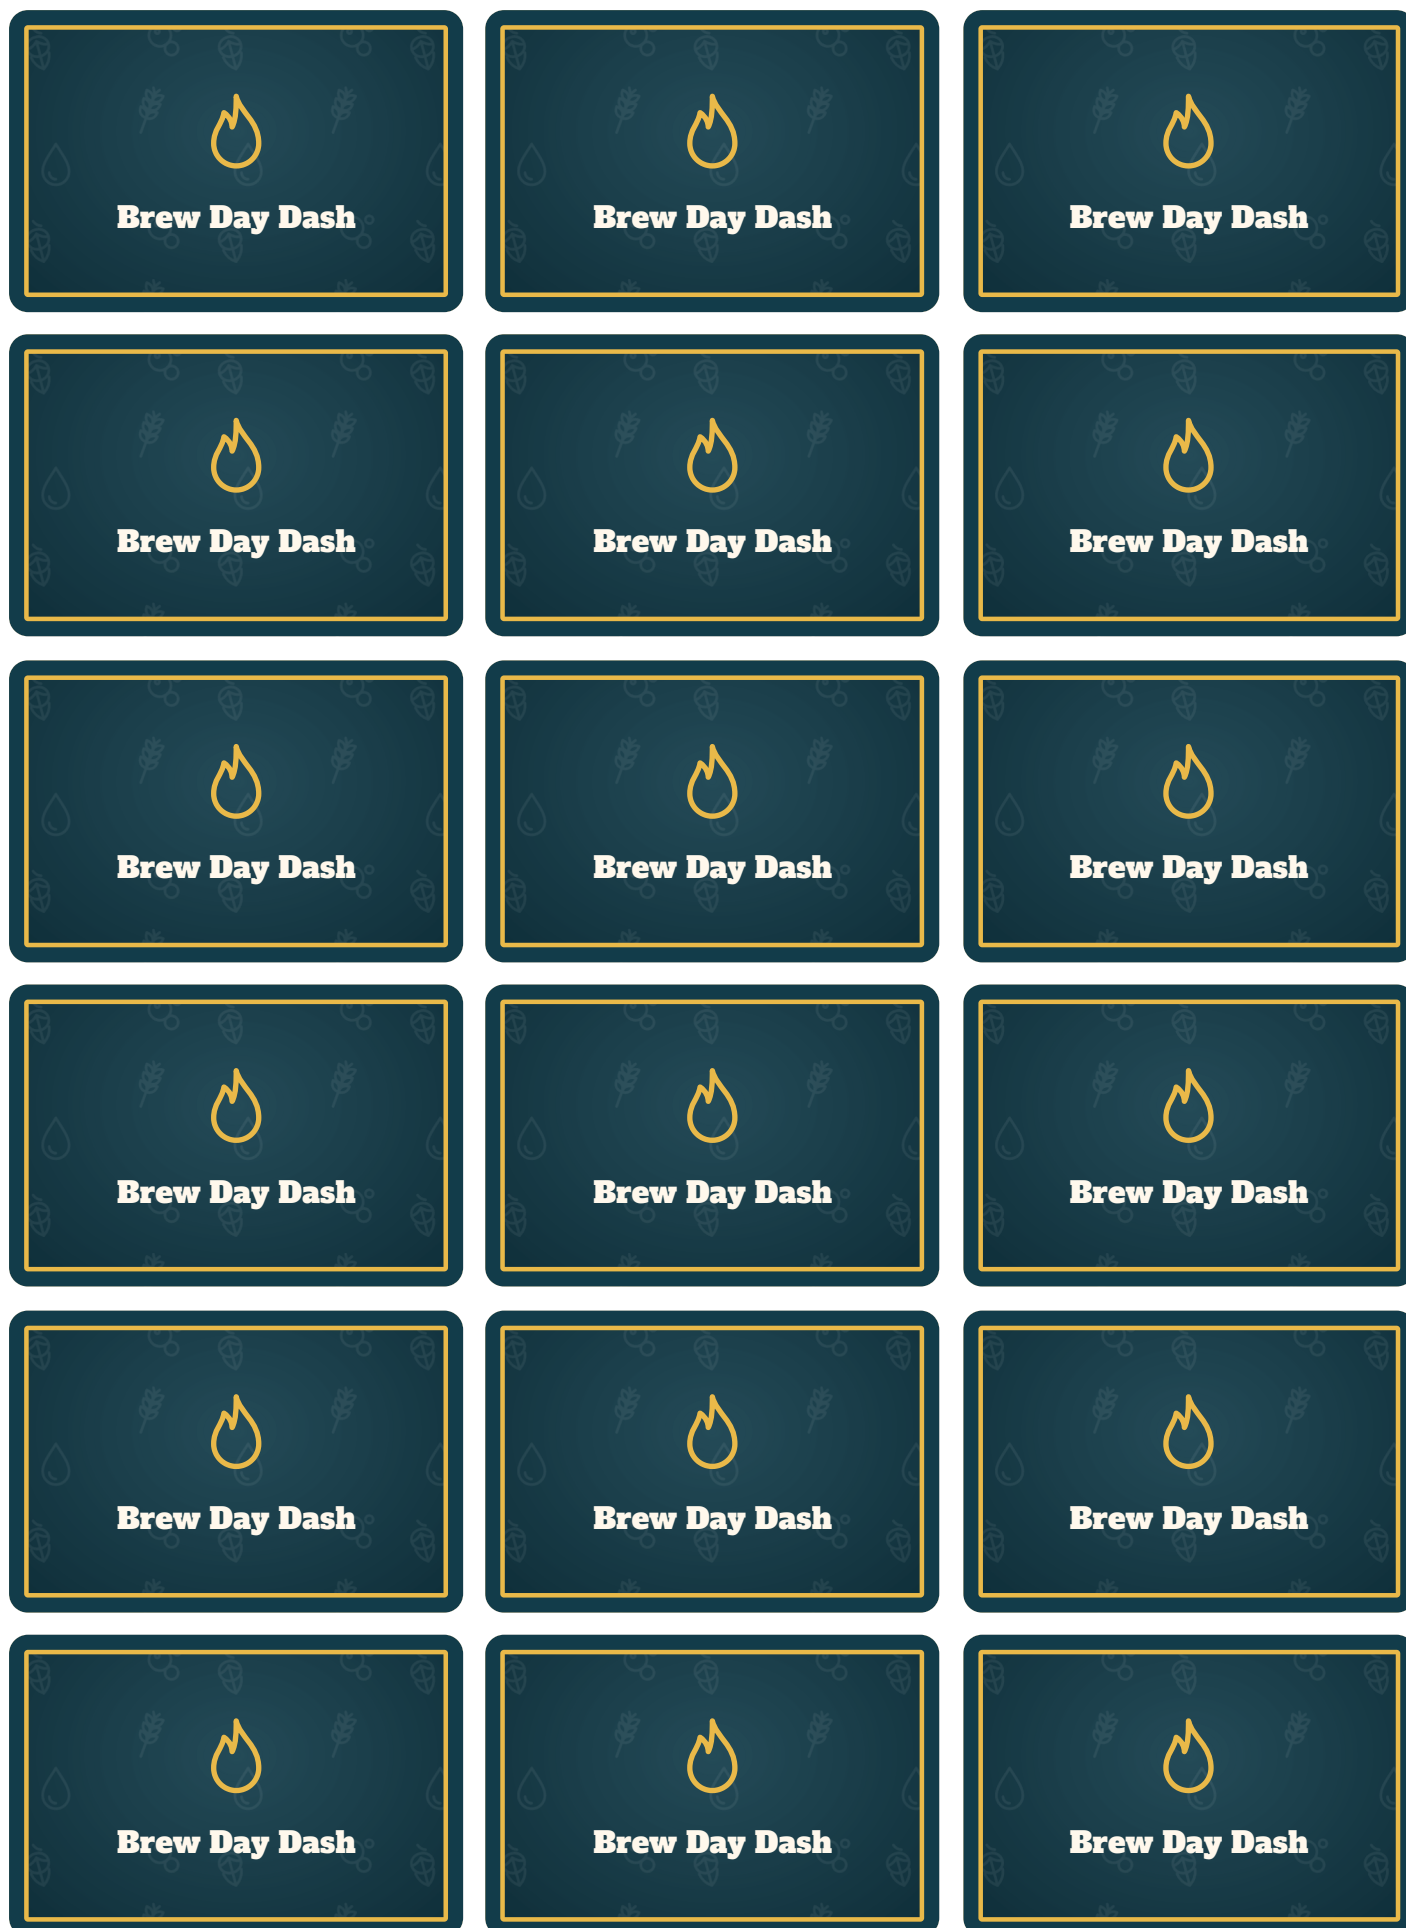

The nine stages

1. **Mill.** Crack the malt so water can reach the starch.
2. **Mash.** Hot water turns starch into sugar.
3. **Lauter.** Run off the sweet wort and rinse the grain.
4. **Boil.** Add hops, sterilise and drive off DMS.
5. **Whirlpool.** Spin out hop debris and proteins.
6. **Chill.** Cool the wort fast before the yeast goes in.
7. **Ferment.** Yeast turns sugar into alcohol and CO₂.
8. **Condition.** Cold time to clear and smooth the beer.
9. **Package.** Keg, can or bottle it. Play this and you win!

Cards. Cut along the edges.

Stage 1 of 9  Mill Crack the malt so water can reach the starch.	Stage 1 of 9  Mill Crack the malt so water can reach the starch.	Stage 1 of 9  Mill Crack the malt so water can reach the starch.
