

Brew Ludo

2 to 4 players

Four ingredients race to the glass. Malt, Hops, Yeast and Water each need to get home before the beer is brewed.

How to play

Rules

Set up

1. Each player picks an ingredient and puts its four caps in their store, the big coloured corner.
2. Everyone rolls. The highest roll goes first, then play passes clockwise.

On your turn

1. Roll a 6 to move a cap out of your store onto your GO square.
2. Move one cap clockwise by the number you roll. If no cap can move, your turn ends.
3. A 6 gives you another roll. Three 6s in a row and the batch boils over: your turn ends at once.
4. Land exactly on another player's cap and it is a spoiled batch: that cap goes back to its store.
5. Star squares are taprooms. Caps on a taproom are safe and cannot be sent home.
6. Two of your own caps on one square form a blend. Nobody can land on or pass a blend.

Getting home

1. After one full lap, turn into your own coloured lane towards the glass.
2. You need the exact number to reach the glass. Too high and the cap stays put.
3. The first player with all four caps in the glass wins the round of beers.

Know your ingredients. Malt gives the sugar, body and colour. Hops give bitterness and aroma. Yeast turns sugar into alcohol and carbon dioxide. Water is more than 90 per cent of every beer, so its minerals matter.

Brewer's rule (optional). Roll a 1 while on a taproom and you may tell a beer fact. If the table agrees it is true, roll again.

Cut out

Pieces and die

Print on thick paper or card. Cut out the caps and glue each onto a coin or a real bottle cap so it sits flat. Fold the die along the lines and glue the grey tabs inside. Or just use any die you have.

Malt

Hops

Yeast

Water
