Brewery Quiz Trail

2 to 6 players

45 minutes

Ages 12+

Print, cut, play.
craftbeerschool.in

How to play

Rules

1. Everyone starts on any HQ space. Roll the die and move either way round the trail.
2. The player to your left draws a quiz card and reads the question in the colour you landed on. Answers are in small print below.
3. Right answer: roll again. Wrong answer: your turn ends.
4. Land on an HQ and answer its colour correctly to win that category's badge. Tick it on a scrap of paper or take a cap of that colour.
5. With all six badges, head into the glass along any spoke. Your opponents choose the category for the final question.
6. Get the final question right and you win.

Quick version

No board needed. Deal the cards to a quizmaster who asks round the table. First to six correct, one per colour, wins.

72 questions across six categories: ingredients, process, styles, sensory, business and India. They match what Craft Beer School teaches, so the quiz works well as an end-of-course test.

Brewery Quiz Trail, a free print-and-play game from Craft Beer School

craftbeerschool.in

Quiz card 1

-  Which grain is most often malted for beer?
Answer: Barley
-  What is the step where crushed malt soaks in hot water?
Answer: Mashing
-  Which city gave the Pilsner its name?
Answer: Plzeň (Pilsen), Czech Republic
-  Which off-flavour smells of butter or butterscotch?
Answer: Diacetyl
-  What is a brewpub?
Answer: A pub that brews its own beer on site
-  Which city is often called India's craft beer capital?
Answer: Bengaluru

Quiz card 2

-  Besides bitterness, what do hops give beer?
Answer: Aroma and flavour; they also help keep it fresh
-  What do brewers call beer before it ferments?
Answer: Wort
-  Which German wheat beer tastes of banana and clove?
Answer: Hefeweizen
-  Which off-flavour smells of cooked sweetcorn?
Answer: DMS (dimethyl sulphide)
-  What is contract brewing?
Answer: Paying another brewery to brew your recipe
-  Who issues liquor licences in an Indian state?
Answer: The state excise department

Quiz card 3

-  What does yeast make from sugar?
Answer: Alcohol and carbon dioxide
-  How long is a typical boil?
Answer: 60 to 90 minutes
-  Which Belgian wheat beer uses coriander and orange peel?
Answer: Witbier
-  A green apple aroma usually points to what?
Answer: Acetaldehyde
-  What is gypsy brewing?
Answer: Brewing in other people's breweries without owning one
-  Which national body sets food safety rules for beer?
Answer: FSSAI

Quiz card 4

-  Roughly how much of a beer is water?
Answer: More than 90 per cent
-  Name one reason to chill wort fast after the boil.
Answer: Less DMS, less infection risk, ready to pitch yeast
-  What does IPA stand for?
Answer: India Pale Ale
-  Wet cardboard tells you a beer is what?
Answer: Oxidised
-  Kegs or bottles: which is cheaper per litre to package?
Answer: Kegs
-  Name one Indian state where alcohol is prohibited.
Answer: Gujarat, Bihar, Nagaland or Mizoram

Quiz card 5

-  Which part of the hop plant goes into beer?
Answer: The flower, called the cone
-  What does pitching mean?
Answer: Adding yeast to the wort

Answer: Dry stout
-  What makes a beer smell skunky?
Answer: Light striking hop compounds
-  What does COGS stand for?
Answer: Cost of goods sold
-  Which grains are common adjuncts in Indian mass-market lager?
Answer: Rice and maize

Quiz card 6

-  Which hop compounds turn bitter in the boil?
Answer: Alpha acids
-  Which instrument measures gravity?
Answer: A hydrometer or a refractometer
-  Which German style is linked with Oktoberfest?
Answer: Märzen, or Festbier today
-  Where does clove in a wheat beer come from?
Answer: Yeast phenols
-  What does on-trade mean?
Answer: Bars, pubs and restaurants
-  Why does fermentation temperature control matter so much in India?
Answer: Heat makes yeast throw off-flavours

Quiz card 7

-  What is the species name of lager yeast?
Answer: *Saccharomyces pastorianus*
-  What is lagering?
Answer: Cold conditioning for weeks
-  Which pale ale style comes from Cologne?
Answer: Kölsch
-  What is a triangle test?
Answer: Three samples, two the same: find the odd one
-  What does off-trade mean?
Answer: Shops and retailers
-  Why does kveik yeast suit Indian heat?
Answer: It ferments cleanly at high temperatures

Quiz card 8

-  What is the species name of ale yeast?
Answer: *Saccharomyces cerevisiae*
-  What is dry hopping?
Answer: Adding hops after the boil, usually in the fermenter

Answer: Light and low alcohol first, dark and strong last
-  What does brewhouse efficiency measure?
Answer: How much of the malt's sugar ends up in the wort
-  Can beer brands advertise directly in India?
Answer: No; brands use surrogate advertising instead

Card backs. Print on the reverse of the sheet before.

Cut out

Pieces and die

Print on thick paper or card. Cut out the caps and glue each onto a coin or a real bottle cap so it sits flat. Fold the die along the lines and glue the grey tabs inside. Or just use any die you have.
